MARS GAMING

MC4 CASE

New Mars Gaming MC4 is a high performance gaming case designed for professionals. It supports high-end graphics cards, up to 380 mm, to achieve extreme performance during the game.

Its ventilation system is extremely powerful including a watercooling support, a complete air guiding system and capacity to install up to 5 fans. MC4 already includes two: one font fan and another in top panel. Both are 12 cm fan with an awesome red-led lighting system. And, if we add the removable and washable dust filter, we get one of the cases with the best cooling.

The MC4 supports up to 160 mm high CPU coolers, has a compete cable guiding system and includes an upgraded 90 degrees rotated HD cage, for an easier installation.

The best features that can be expected in a gaming case combined in the new MC4.
